Why Choose Us?

CITY GAS DISTRIBUTION

ASPN successfully developed to supply natural gas safely and efficiently to domestic, commercial, industrial, and transportation consumers within a city or geographical area.

CGD networks primarily distribute:

- PNG (Piped Natural Gas) for households, commercial establishments, and industries

1. Steel Pipeline Network

- High-pressure and medium-pressure steel pipelines.
- Connect the gas source to city distribution networks.
- Includes trenching, welding, lowering, coating, and testing.

2. MDPE Pipeline Network

- MDPE pipelines Laying/commissioning.
- Used for residential and commercial gas distribution.
- Installed underground through trenching and directional drilling.

3. Pressure Regulating Stations

- District Regulating Stations (DRS)
- Service Regulating Stations (SRS)

These reduce gas pressure before distribution to consumers.

ROAD CONSTRUCTION & RENOVATION

ASPN Civil division is into Road Construction & Renovation involves the planning, design, construction, strengthening, rehabilitation, and maintenance of road infrastructure to ensure safe, durable, and efficient transportation networks. It includes the development of new roads as well as the improvement and restoration of existing roads, highways, streets, and urban transportation corridors.

Road Construction

- Greenfield road development
- National & State Highways
- Urban roads and streets
- Industrial roads
- Internal roads for residential and commercial projects
- Rural road development

Road Renovation & Rehabilitation

- Road widening and strengthening
- Overlay and resurfacing works
- Pavement rehabilitation
- Reconstruction of damaged roads
- Pothole repair and maintenance
- Road safety improvements

CONTACT US

City Street Light

City Street Light Installation involves the planning, supply, installation, testing, commissioning, operation, and maintenance of street lighting systems for roads, highways, residential areas, industrial zones, commercial districts, parks, and public infrastructure. These systems enhance road safety, security, visibility, and energy efficiency while supporting smart city development.

clients.

Street Lighting Infrastructure

- LED Street Light Installation
- Smart Street Lighting Systems
- Solar Street Lighting Solutions
- High Mast Lighting Installation
- Decorative & Landscape Lighting
- Road & Highway Lighting

Electrical Infrastructure

- Pole erection and foundation works
- Underground cable laying
- Overhead electrical connections
- Feeder pillars and distribution panels
- Earthing and lightning protection systems

WATER & SEWAGE PIPE LINE DEPLOYMENT

Water & Sewage Pipe Line Deployment

involves the construction, installation, testing, commissioning, operation, and upkeep of water distribution networks that ensure the reliable supply of clean and safe water to residential, commercial, industrial, and municipal consumers. These systems form the backbone of urban and rural water infrastructure.

Water Pipeline Installation

- New water distribution networks
- Transmission and distribution pipelines
- HDPE, DI, MS, GI, and PVC pipeline laying
- Underground water supply systems
- Industrial and municipal water projects

Maintenance & Rehabilitation

- Leak detection and repair
- Pipeline replacement and upgrading
- Preventive and corrective maintenance
- Valve and hydrant maintenance
- Emergency repair services

SOLAR & GREEN ENERGIES DEPLOYMENT

Solar Installation and Green Energy are key components of the global transition toward sustainable, low-carbon, and environmentally responsible energy systems. Governments, industries, and communities worldwide are investing heavily in renewable energy technologies to reduce dependence on fossil fuels, enhance energy security, and combat climate change.

Components of a Solar Installation

- **Solar Panels (PV Modules)** Capture sunlight and convert it into electricity.
- **Inverters** Convert DC electricity into AC electricity for use in homes and industries.
- **Mounting Structures** Support solar panels on rooftops or ground-mounted systems.
- **Electrical Wiring & Protection Systems** Connect and protect the solar system.
- **Battery Storage (Optional)** Stores excess electricity for later use.
- **Monitoring Systems** Track energy production and system performance.

Major Green Energy Sources

1. Solar Energy
2. Wind Energy
3. Green Hydrogen
4. Biomass Energy
5. Hydropower

GOVT. PMU & OVERSEAS MANPOWER PLACEMENT

ASPN Provides Project Management Manpower to various Ministries, PSUs, Government Departments, Infrastructure Agencies, and Public Institutions regularly require skilled and contractual manpower for project execution, operations, maintenance, customer services, technical support, and administrative functions.

Major Sectors

Urban Development, Oil & Gas / Power & Energy /
Railways Telecommunications / Banking &
Financial Services / Mining & Metals / Airports &
Aviation
Healthcare / Smart Cities & Urban Development
